DETAILED ACTION

Response to Amendment

1.   This Office action is responsive to applicant's amendment filed June 28, 2006.

Claims 1 and 10-14 are pending.

Allowable Subject Matter

2.   Claims 1 and 10-14 are allowed.

3.   The following is an examiner's statement of reasons for allowance: No prior art

has been found to disclose or suggest applicant's selection of a third set of possible

states, said third set being a real sub-set of a second set of possible states of a

quantized image, said second set being is a real sub-set of a first set of possible states

of an input pixel; and quantizing a next modified pixel to obtain a next quantized pixel

value by selecting one state out of said third state, wherein the third set in selected

depending on, or as a function of, a state of said input pixel, as recited in base claims 1,

13 and 14. As mentioned in applicant's remarks on pages 5 and 6 of the current

amendment, the cited prior art (Dispoto) does not disclose or suggest quantization of a

modified input pixel being influenced by the value of the *unmodified* input pixel. In the

amended base claims, the input pixel clearly refers to a pixel obtained from an input

image prior to modification to generate a modified pixel value.

        Any comments considered necessary by applicant must be submitted no later

than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on

Statement of Reasons for Allowance."
